

The 15-acre Crawford Range plant at Watkinson, Mass. — the most modern and complete of its kind in the world.

A Message To Women Only

Three kinds of women are interested in this message. The woman who cooks for a living. The woman who cooks for her family. And the woman who **orders** her cooking. The Kitchen Range is a vital factor in the happiness of any family! It is related to the **health** of the family. Not merely a **good** range—but the **best** range is as important to you as the food which it cooks.

Crawford Ranges

are a life investment for every home. A woman can proudly say "My Crawford" to her friends.

The Crawford Range is the perfect Range. It has at least 20 distinct advantages (some of them patented) over all other Ranges.

There is the "Single Damper" that makes cooking in a Crawford automatic. Fire and oven are regulated by one motion.

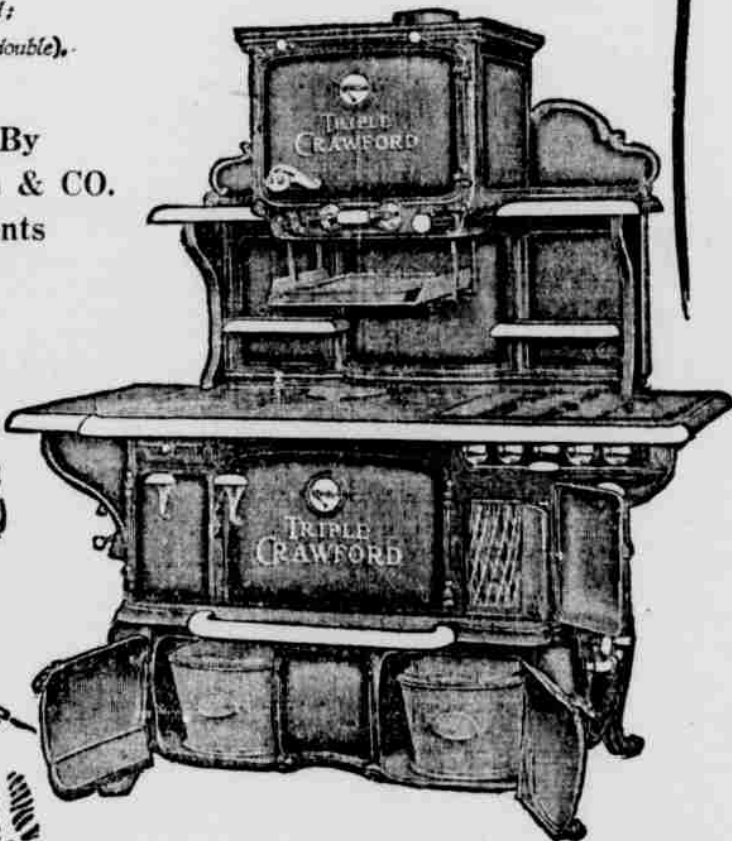

There are no "secret" hot and cold corners in a Crawford oven. You can cook in a back corner of it just as perfectly as in the center.

And the Ash Hod ideal! It saves you a mile of walking and lots of drudgery.

The Crawford Range is the most imitated Range in America. And when you see the other Crawford advantages you will know why the man who sells it and the woman who owns it know it is the world's best Range.

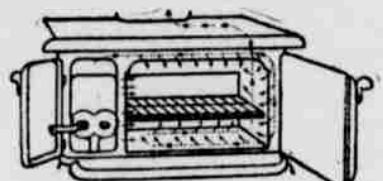

Gas oven if desired; end (single) or elevated (double).

BAKE CHECK KINDLE

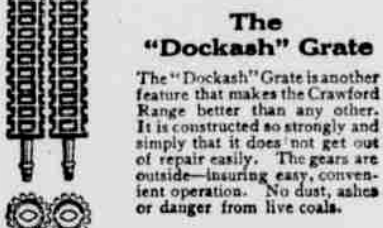

Single Damper
Bakes—checks—kindles. One little knob (always cool) regulates fire and heat with a single motion. The greatest time, trouble and money saving device ever put in a stove.

The Crawford Oven
Here is the most dependable and perfect oven you ever saw. The curved cup-joint flues are responsible. They distribute the heat evenly to every corner of the oven. Better cooking assured.

The Convenient Ash Hod
The Crawford Ash Hod receives the ashes so far beneath the grate that they cannot bank up and warp the grate. Interchangeable with the ash hod that stands beside it. When coal hod is empty the ash hod is full. When you remove ash hod replace it with empty coal hod. Empty ashes and fill ash hod with coal on same trip. Saves extra coal.

The "Dockash" Grate
The "Dockash" Grate is another feature that makes the Crawford Range better than any other. It is constructed so strongly and simply that it does not get out of order easily. The grate is outside—insuring easy, convenient operation. No dust, ashes or danger from live coals.

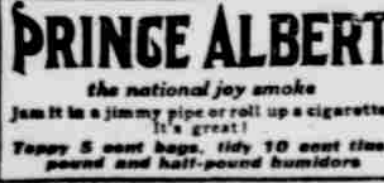

The Heat Indicator
Here is a wonderful convenience that is furnished free with every Crawford. Unlike other indicators, its delicate mechanism is not exposed to the oven vapors that destroy accuracy. A big help to better cooking.

REMEDY FOR NEURASTHENIA

Neurasthenia is a condition of exhaustion of the nervous system. The causes are varied. Continuous work, mental or physical, without proper vacation periods, without proper attention to diet and exercise, also worry over the struggle for success, are the most common causes. Excesses of almost any kind may produce it. Some diseases, like the grip, will cause neurasthenia. So also will a severe shock, intense anxiety or grief.
The symptoms are oversensitiveness, irritability, a disposition to worry over trifles, headache, possibly nausea.
The treatment is one of nutrition of the nerve cells, requiring a non-alcoholic tonic. As the nerves get their nourishment from the blood the treatment must be directed towards building up the blood. Dr. Williams' Pink Pills act directly on the blood and have proved of the greatest benefit in many cases of neurasthenia. A tendency to anemia, or bloodlessness, shown by most neurasthenic patients, is also corrected by these tonic pills.
Two useful books "Diseases of the Nervous System" and "What to Eat and How to Eat" will be sent free by the Dr. Williams Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills.

HOG PRICES FIRM.

Prices of Beef Cattle and Calves Slightly Easier at Brighton Stockyards.
Brighton, Mass., Sept. 13.—Hogs were firmly held at the Brighton stock yards yesterday, but beef cattle and calves were slightly easier, under heavy receipts.
Hall & Lovell brought to market yesterday the finest carload of steers seen at Brighton for years, some of the experts say as fine as anything ever seen there. They were raised by Mosher & Lane at Farmington, Me. There were 16 head in the bunch, all blue ribbon winners, just from the Maine fairs. They brought 10 cents, the top price for the day. Other tops at 8½ cents to 9 cents, with good cattle at 7½@8 cents and light cattle at 6½@7 cents.
Owing to the sausage makers' strike, canner cows continue to sell slowly, the quotation being 3@3½ cents, with most sales at the lower range. Tops brought 6@6½ cents, with a fancy beef cow or heifer bringing a little more. Good cows sold at 5@6 cents, and ordinary cows at 4@5 cents.
Bulls were easier, tops selling at 5@6 cents, and occasionally more, with ordinary bulls at 4½@5 cents and bolognas at 4@4½ cents.
Calves were easier under heavy receipts, 11 cents being the top for small lots of fancy stock. Bunch lots brought 9½@10½ cents for good and 8½@9½ cents for fair and 6@7½ cents for grassers and drinkers.
Hogs were firmly held, with a light run, both here and in the West. Best lots sold at 11@11½ cents, with rough lots at 10½@10¾ cents.
Only a few sheep and lambs were noted at the yards yesterday morning, but prices were somewhat easier at 6@7½ cents for sheep and 9@9½ cents for best lambs.
Offerings of milch cows were heavy, and trade was slow. Prices were actually easier, though drovers were nominally asking as much as a week ago. Ordinary milkers cannot be quoted at over \$35@40, with good milkers bringing \$50@60, and fancy milkers \$75@85 and upwards.

Hogging a Good Thing.

"Alice," said Mr. Goodthing, "will you give that young man of yours a message from me?"
"Why, yes, father," said Alice, blushing.
"Then, tell him that your parents don't object to his big gas bills, but they draw the line at his carrying the morning paper with him when he leaves."—The Lamb.

Wait.

Willie Wilks—Pa, what do they mean by "Shoemaker, stick to your last?"
Pa Wilks—Wait, my son, until you are old enough to see ball players on the stage, legitimate actors in the movies and movie actresses writing newspaper articles and you will know.—Judge.

Colder Ice.

Mrs. Youngbride—'I'm getting our ice from a new man now, dear?'
Youngbride—What's wrong with the other man?
Mrs. Youngbride—The new dealer says he'll give us colder ice for the same money.—Boston Transcript.

Easy Way to Get Rid of Itching

Don't worry any more about that itching skin-trouble. Just get a jar of resinol ointment and a cake of resinol soap at any drug store.

With the resinol soap and warm water bath the affected parts thoroughly, until they are free from crusts and the skin is softened.

Dry very gently, spread on a thin layer of the resinol ointment, and cover with a light bandage—if necessary to protect the clothing.

This should be done twice a day. Usually the distressing itching and burning stop with the first treatment, and the skin soon becomes clear and healthy again.

Choosing Your Shampoo Soap

If you select a soap that contains soothing, healing properties like the resinol balsams in resinol soap, you are not likely to have trouble with dandruff, loss of hair or itching scalp. Ideal for the youngsters' heads.
